

ALIN KUMAR

Aspiring Data Scientist | Machine Learning | Data Analytics

alinkumar@gmail.com | 9250220848 | Delhi, India

GitHub Profile | LinkedIn Profile

PROFESSIONAL SUMMARY

Aspiring Data Scientist with a strong foundation in Python, SQL, Machine Learning, and Data Analytics. Skilled in data preprocessing, exploratory data analysis, feature engineering, predictive modeling, and data visualization. Experienced in building end-to-end machine learning projects across financial fraud detection, telecom customer churn prediction, and lead conversion analytics while transforming complex data into actionable business insights.

TECHNICAL SKILLS

Languages:	Python, SQL
Machine Learning:	Scikit-learn, XGBoost, Random Forest, Logistic Regression, Decision Trees, KNN, Ensemble Learning, Hyperparameter Tuning, Cross Validation
Data Analysis:	Pandas, NumPy, Data Cleaning, Exploratory Data Analysis, Feature Engineering, Feature Selection, Statistical Analysis
Visualization:	Power BI, Matplotlib, Seaborn, Plotly
Tools & Technologies:	Git & GitHub, Google Colab, Jupyter Notebook, VS Code, MySQL, Microsoft Excel

PROJECTS

AI-Powered Financial Fraud Risk Intelligence System

GitHub Repository: [GitHub Repository](#)

- Developed an AI-powered fraud detection pipeline using ensemble machine learning techniques.
- Achieved **99.98% Accuracy** and **99.56% ROC-AUC** on highly imbalanced financial transaction data.
- Improved fraud identification with **98.9% Precision** through feature engineering and model optimization.
- Integrated SHAP explainability to provide transparent and interpretable model predictions.

Tech Stack: Python, Pandas, Scikit-learn, XGBoost, SHAP, SQL

Telecom Customer Retention Intelligence Platform

GitHub Repository: [GitHub Repository](#)

- Built a customer churn prediction system using multiple machine learning algorithms.
- Achieved **84.2% ROC-AUC** after evaluating and optimizing multiple classification models.
- Identified high-impact churn drivers using explainable AI and feature importance analysis.
- Designed an interactive Power BI dashboard to support business decision-making.

Tech Stack: Python, Pandas, Scikit-learn, XGBoost, Power BI

Lead Conversion Intelligence Platform

GitHub Repository: [GitHub Repository](#)

- Developed a machine learning pipeline for lead conversion prediction.
- Achieved **87.1% Accuracy** with **80.8% Precision** after hyperparameter optimization.
- Automated lead prioritization using probability-based conversion scoring.
- Improved marketing decision-making through predictive analytics.

Tech Stack: Python, Pandas, Scikit-learn, SQL

EDUCATION

Bachelor of Commerce (B.Com.)

School of Open Learning (SOL)
University of Delhi
2025 – 2028 (Pursuing)

LINKS & PORTFOLIO

GitHub: [GitHub Profile](#)

LinkedIn: [LinkedIn Profile](#)

KEY STRENGTHS

Problem Solving | Analytical Thinking | Data-Driven Mindset | Communication | Continuous Learning | Team Collaboration

SEEKING OPPORTUNITIES

Actively seeking internship opportunities in Data Science / Machine Learning / Data Analytics roles to apply my skills, learn from real-world challenges, and contribute to impactful projects.
